IN CASE OF FIRE

(i.e. the take was too fire)

1. Stop recording. Do NOT punch in.
2. Save the take. Name it per FNS 808.
3. Leave the mic. It's a condenser, it can't run.
4. Push through the coats. All 14.
5. Do not trip over the vacuum cleaner.
6. Proceed to the fridge.
7. Take an energy drink. Count everyone (you).
8. Wait for the producer to say "one more".
